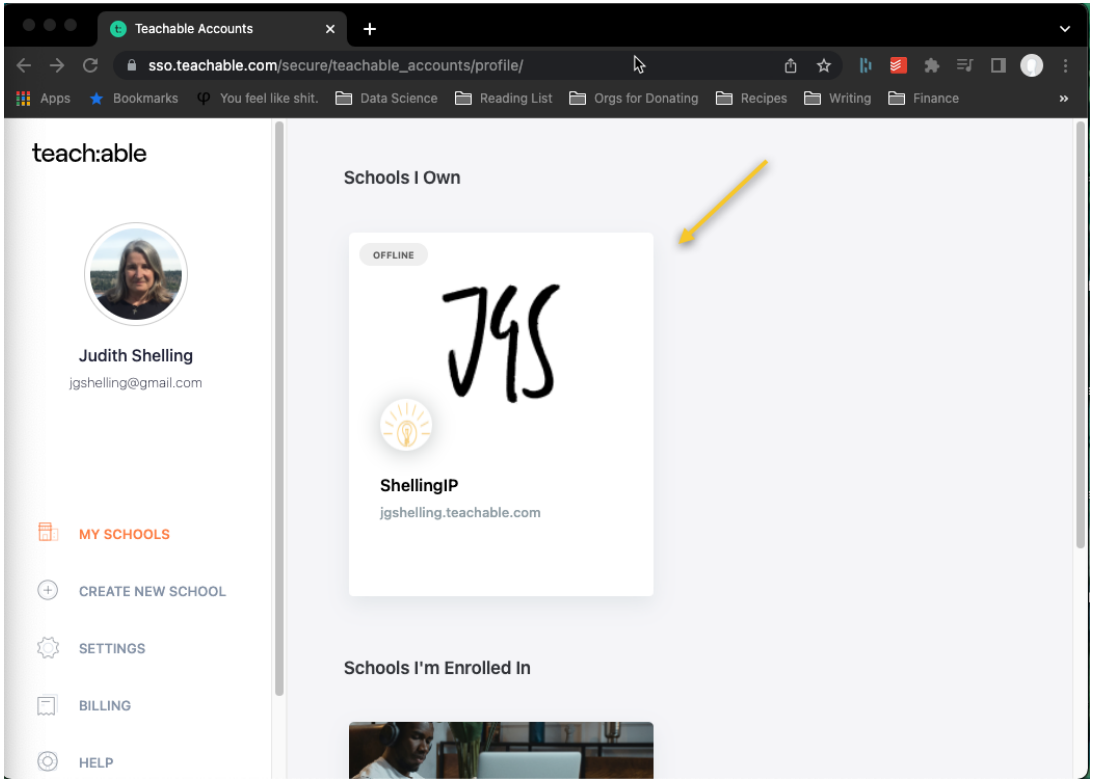
How to Access & Edit Your Teachable Course Curriculum:

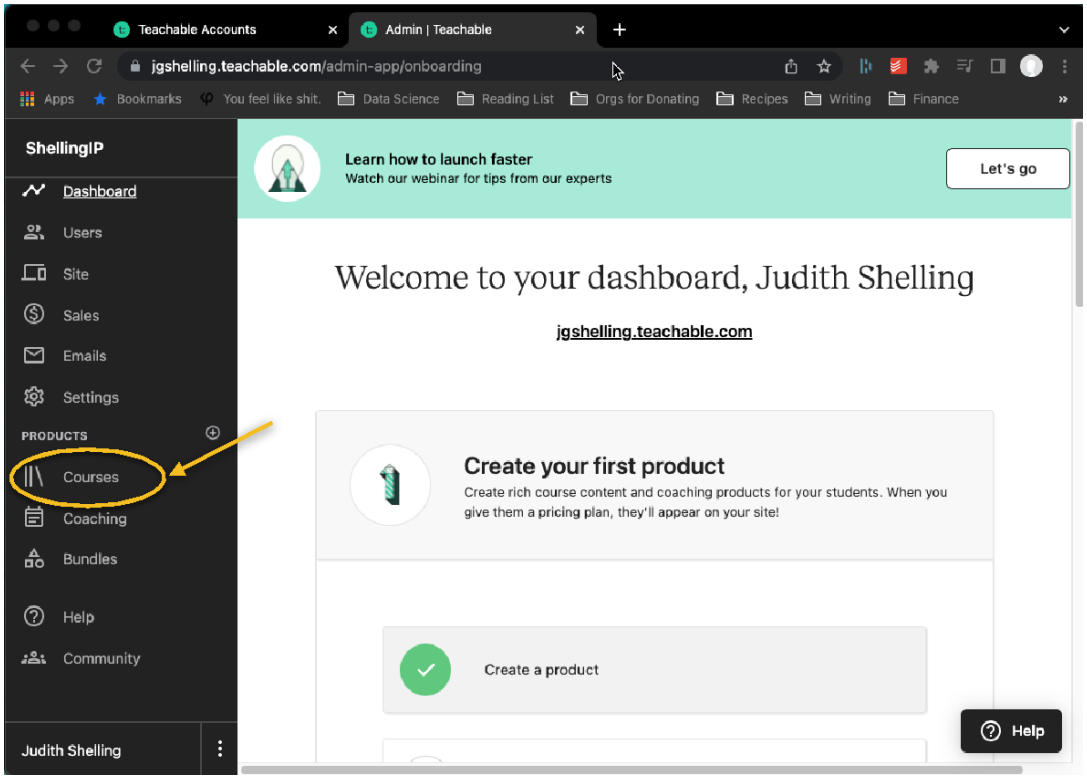


Screenshot 1 – Choose school from Teachable account dashboard (Example: ShellingIP)

1. Log into Teachable. You'll be shown all your current schools on the home page after you log in.

2. Click on the school you're working on. That will open that school's dashboard in a new tab.

- *Your school dashboard might include a numbered checklist. Don't worry about that right now, it's just a getting-started guide.*



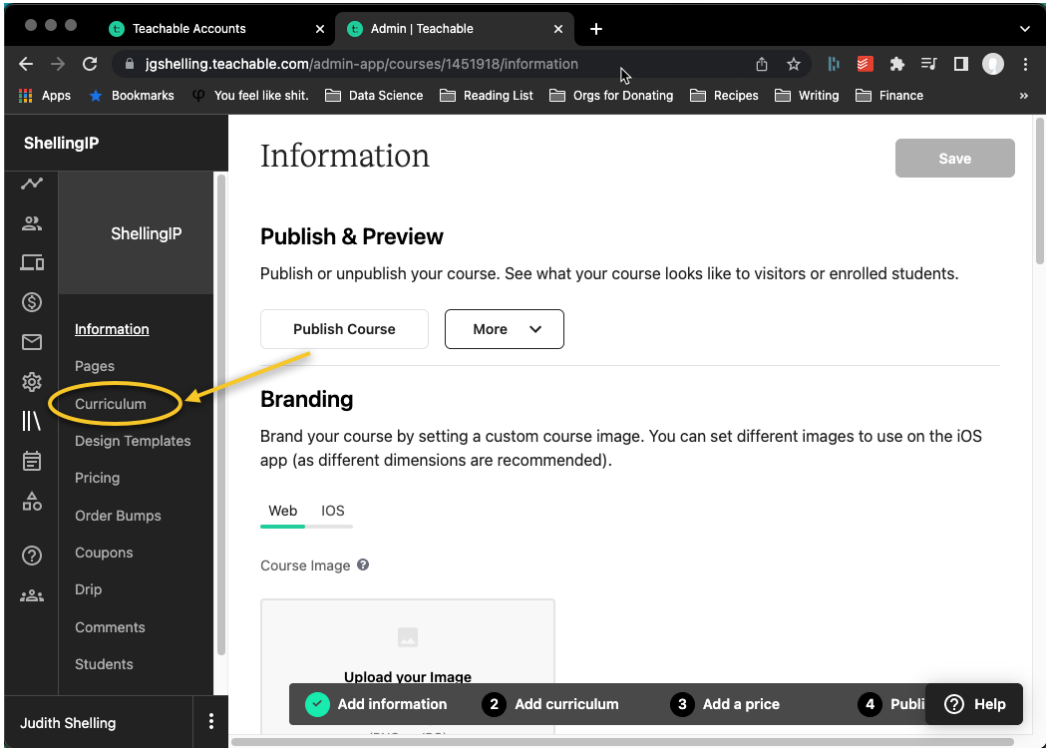
Screenshot 2 —Select "Courses" from menu bar (Example: ShellingIP)

3. Select "Courses" from the left-hand menu bar.

- *You'll see a list of all your current courses.*

4. Click on the name of the course whose curriculum you want to edit. You'll be taken to that course's dashboard.

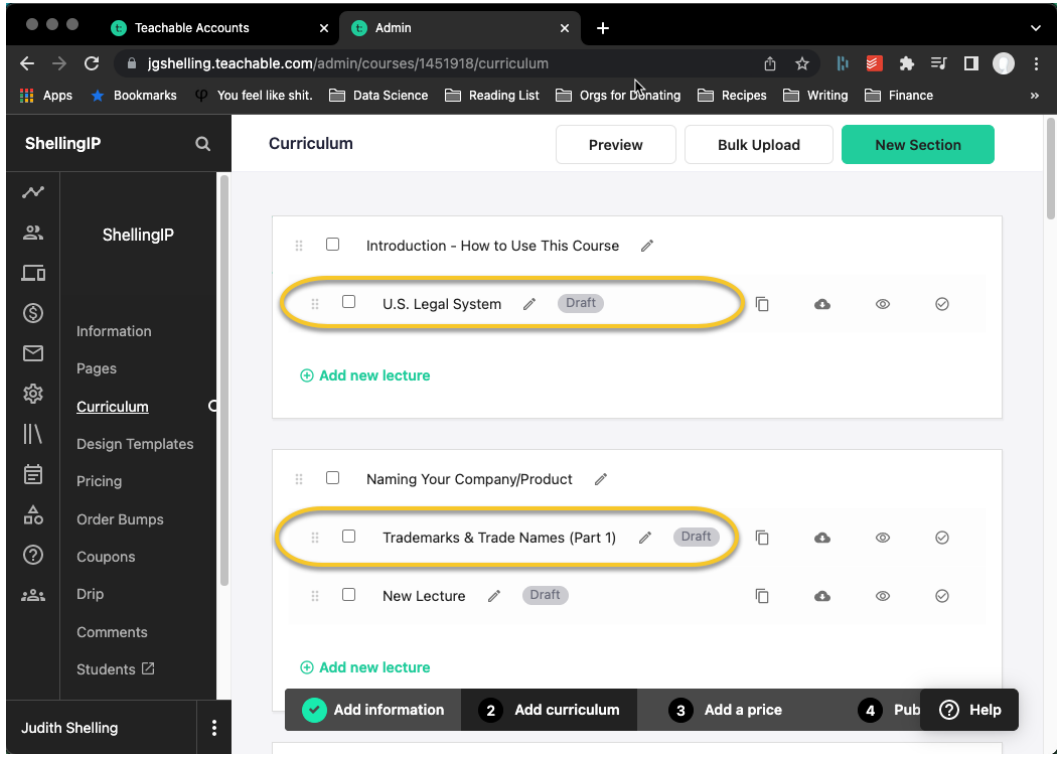
- *This is where you edit your course branding (like its logo). Don't worry about that stuff just yet*



Screenshot 3 – Click "Curriculum" to access course sections and lectures (Example: ShellingIP)

5. Click on "Curriculum" in the left-hand menu bar.

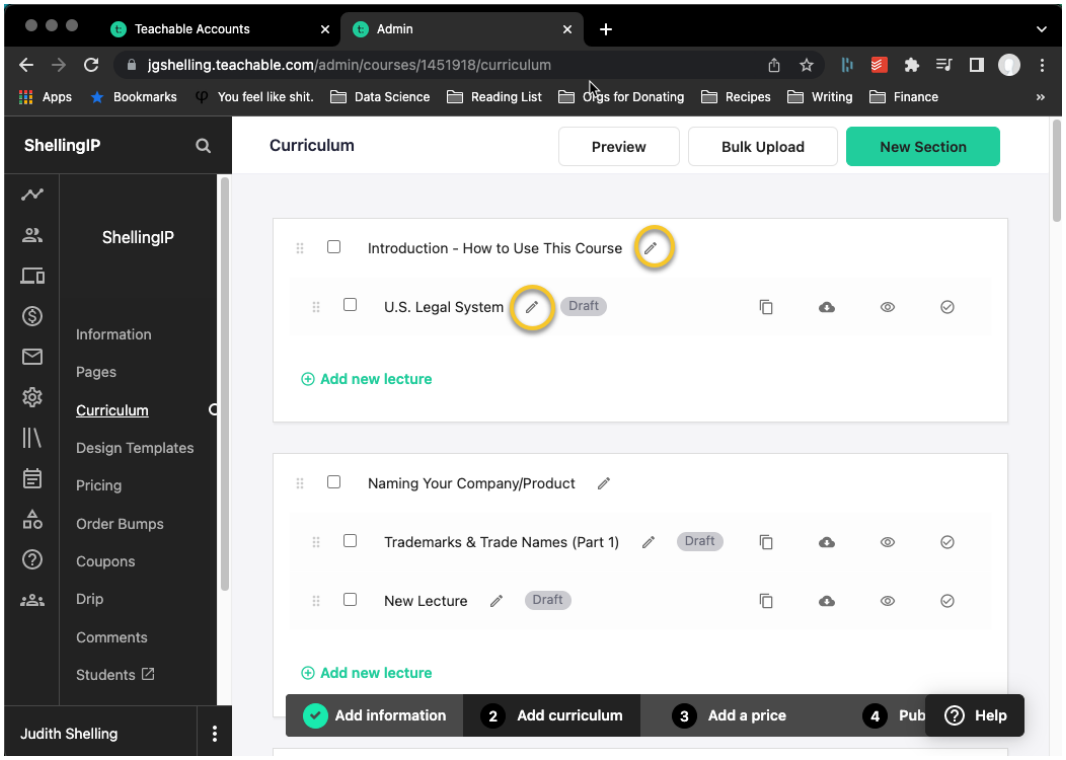
- *You'll be taken to a list of that course's sections and lectures – even the unpublished (draft) material.*



Screenshot 4 – Click on any lecture to edit its contents (Example: ShellingIP)

6. Click on any lecture to start editing that lecture's content.

That's it, edit away!



P.S. *— If you want to edit the title of a lecture or section without clicking into its contents, click on the little pencil icon next to the lecture name.*
