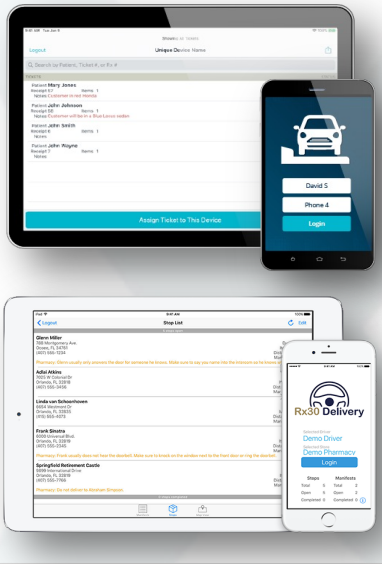
TDS Curbside and Delivery



KEY FEATURES

- Convenient Delivery Methods for Patients and Home-Bound Customers
- Turn-by-Turn Instructions for Delivery Drivers
- Electronic Signature Capture for Compliance Needs
- Auto Sync completed Deliveries with your TDS Pharmacy System
- Mobile Credit Card Processing for TDS POS Users

TDS Curbside and Delivery Apps provide your pharmacy with more ways to promptly and safely serve customers. Easily deliver prescriptions and OTC items to the curbside or directly to patients without interrupting your normal workflow.

Precise Driving Instructions

Delivery services add convenience in both rural and urban areas. Ensure prescriptions and OTC items arrive on-time and to the right location with precise turn-by-turn driving instructions through the TDS Delivery App.

Auto Sync Inventory

Completed deliveries are automatically loaded into your pharmacy management system, either in the field or when you return to the pharmacy. TDS Curbside and Delivery is easy for employees and patients.

Electronic Signatures

Ensure your pharmacy is compliant by collecting electronic signatures upon delivery. Collect and store signatures from both curbside deliveries and home deliveries to protect your business.

Process Transactions

Mobile payment processing make TDS Curbside and Delivery even more convenient when serving your patients. All transactions from the TDS Curbside and Delivery Apps are recorded in your pharmacy management software for easy access, reporting, and review.
