(CNN) —

Once mostly a hobby popular with the retired, gardening has seen a surge in interest among people of all ages, as we have been forced to spend more and more time in our homes during lockdown. In fact, DIY and home improvements of all kinds are on the rise as people look around their lockdown environments and think, “How can I improve my space?”

Creating a garden or a tidy, organised backyard gives you an extra (outdoor) room in your home, as well as the sense of satisfaction and purpose that comes from caring for and growing living things. It doesn’t matter if you have just a small balcony off your apartment or a large sprawling lawn, you can make your outdoor space more beautiful and inviting with the following gardening products. All of them are available from Amazon.ca, so you don’t even need to leave your garden to order.

Gardening tools
