### MY THOUGHTS:-

I see **BILL GATES** as a practical man. He was the one who told us that a virus is coming and it would kill millions of people. He told us that we must do tests and continue social distancing. He called it a shut down. He was also worrying about the economic damage too. I see him as a predictor that he predicted the corona virus before it even arrived. He thinks forward as he told us the consequences and solutions of this pandemic. He really had a heart really made of gold. He had feeling for others too.
