Northern Lights Automatic by White Label is a 90% indica, 10% sativa strain. Like many indica-dominant plants, it's short, bushy and offers large yields. The buds are typically big, and coated in resin towards the end of the flowering period. Northern Lights Auto's scent is earthy and slightly sweet, with notes of pine and lemon. Northern Lights Auto is a stable high-yielding strain with a high THC content of up to 23%. NL Auto is highly adaptable to all growing environments; indoors it grows into a small to medium-sized plant enjoying 18 hours of light per 24 and finishing its life-cycle in 55 - 60 days. The strain yields up to 500 g/m².

When growing Original Auto Northern Lights, you can expect plants to reach a height of 90-120cm. She grows quite large and will reward you with an abundance of top quality buds that can be up to 500-600gr/m². Internodal spacing will be very short making her easy to grow and maintain, which is why she is ideal for beginner growers. {CBD Living Dabz Shatter is CO₂ extracted from 100% organic Non-GMO hemp plants and contains absolutely zero THC, solvents, heavy metals or pesticides.}
Northern Lights Auto Strain Info. Northern Lights Auto is a feminized and autoflowering cannabis strain produced by Seed Stockers' breeders based on the landrace genetics from the mountain ranges of Afghanistan. With multiple Cannabis Cups to its name, there's no doubt about the quality of this strain.
