

Fueling Ambition Since 1891

Ambition thrives when passion and talent combine with opportunity. One hundred and twenty five years ago, Drexel knew its place in the world was way out in front of it, changing the way the world thinks. At its founding, the University opened its doors to all regardless of gender, race, religion or class, and that spirit continues to infuse an educational model based on practical knowledge, diverse perspectives and engagement.

At Drexel, we know that ambition can't wait, and we salute *The Philadelphia Tribune's* Women Achieving honorees for realizing theirs.
