SKILLS

Scientific expertise
Content production
Writing
Editing
Interviewing
Research
Confidentiality
Accountability
Collaboration
Social media

EDUCATION

DOCTOR OF PHILOSOPHY
UC Berkeley
Molecular & Cell Biology,
Focus in Genetics

**GRADUATE RESEARCH
FELLOWSHIP**
National Science
Foundation

BACHELOR OF ARTS
Brown University
Human Biology

PROFESSIONAL PROFILE

I am a PhD scientist and science writer skilled in content creation for technical and lay audiences.

EXPERIENCE

CONTENT STRATEGIST, Innovative Genomics Institute, January 2019-present

Co-develop content strategy & create engaging, public-facing content

- Write & edit materials for lay audiences, including news stories, interviews, video scripts, development & branding materials
- Write & edit content for scientific audiences, including research papers, position statements, and proposals
- Create social media content & manage accounts
- Conceptualize illustrations; manage & mentor illustrators
- Manage work-study students, guest writers, and translators

FREELANCE SCIENCE & COPY WRITER 2020-present

- Write web copy & blog posts for lay audiences
- Synthesize scientific data and write white paper on clinical development for a genetic disease
- Wrote scientist profile feature for magazine

FOUNDER & ORGANIZER, Innovative Genomics Institute Diversity, Equity & Inclusion Committee, July 2020-present

Create a strategic plan for DEI at IGI

- Created & distributed the IGI's first demographics & climate survey
- Obtained \$50k in funds for DEI activities for 2021-2022 fiscal year
- Drafting a strategic plan, with emphasis on recruitment, career development, and community-building

GRADUATE STUDENT INSTRUCTOR, UC BERKELEY 2014

Co-teach advanced undergraduate genetics courses

- Design & deliver original lectures
- Co-write student lab manual
- Teach students one-on-one in office hours
