(You Save \$100) Buy 15+ pcs for \$83.00 each (You Save \$225) OUT OF STOCK Log in to subscribe for notifications ... For men, we recommend 50 - 100 mg daily for beginners. Intermediate to advanced athletes may use between 100 - 200 mg per day. A few days after the cycle has come to an end, (PCT) should begin. The drug should not be taken for more than 2 months because there is an increased risk of side effects, and it will reduce the drug's effect. [browse around this site](#)

400 mg per week is recommended for beginners. Advanced users can take it as high as 1000 mg per week. Bodybuilders usually stack Primo with other steroids such as Testosterone or Sustanon. Keep the cycle between 8 to 10 weeks. Watch out for side effects such as hair loss and aggression. In severe cases, Primo can cause liver intoxication as well. [click here for info](#)
