# Rethink Your Company Expenses

*Tracking and managing company expenses isn't easy*

## ➤ **Company Invoices**

Receipts and invoices are inefficient and unreliable. They are easily misplaced, can't be tracked, stored, or assigned to employees. This causes confusion and disorganization.

## ➤ **Company Credit Cards**

Some companies don't even have a company credit card. This means each employee has to pay out of his own expenses, and save the receipt for reimbursement later. This is frustrating for employees, and these expenses are often overlooked.

## ➤ **Lack of Resources**

Managing and tracking company spending and reimbursements takes time and extra resources.

## ➤ **Disorganization**

Several credit cards are often handed around within a company. Companies risk losing track of how much of their budget is going towards internal expenses.

## ➤ **Administration**

Administrative complexity and disorganisation is frustrating for the whole team, especially when there is a lot of paperwork involved.

## ➤ **Internal Communication**

A lack of internal communication, knowledge and awareness of company spending and finances can further complicate tracking and budgeting.

# How does it work?

*Spendesk simplifies work payments and processes*

## ➤ **All-in-one Platform**

Spendesk manages all company spending on one single platform. Everything is organized and stored in one place.

## ➤ **Mobile Application**

Scan receipts and invoices, and track and view all payments and spending in real time from your own dashboard. Spendesk eliminates the need for outdated modes of paperwork.

## ➤ **Budgeting & Workflow**

Rethink your company spending with workflow automation and card budgeting for individual employees.

## ➤ **Integration**

Spendesk integrates seamlessly with your accounting system.

## ➤ **Cross Currency**

Manage all currencies, at any time, from any place.

## ➤ **Employee Happiness**

Eliminating the tedious and repetitive tasks associated with company payments leads to a happier, more productive workforce, allowing your team to continue to do its best work without any unnecessary distractions. Spendesk is not just a solution - it's a long term member of your team.

# Organized & Efficient

Spendesk is the most organized way for your team to handle all payments arising from day-to-day employee tasks. We know you need to track everything, from travel tickets to company coffee.

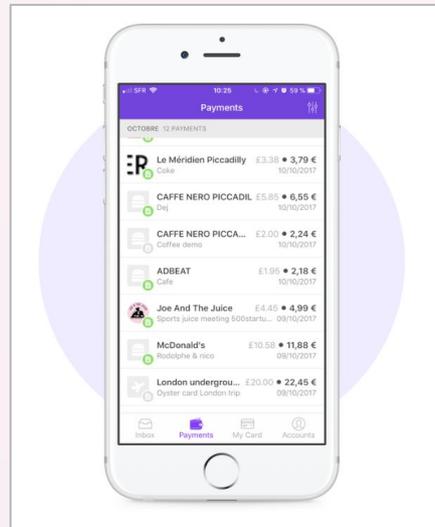

Our solution erases the hassle, frustration, and discrepancies which arise from the absence of automated expense tracking, by providing your company with a powerful and efficient management tool.

Save time, establish a workflow, minimize the extra work, and concentrate on what you do best at work.

# Easy and Intuitive

Experience is everything. At Spendesk, we care about how our clients interact with our product. Controlling finances is an important matter. Our design and technology make the process is as transparent, intuitive and easy to use as possible.

From scanning invoices to tracking spending, the application is seamless, simple, and user-friendly. Notifications, updates and one-tap actions provide you with all the information you need, without interrupting the real business.

# Secure and Reliable

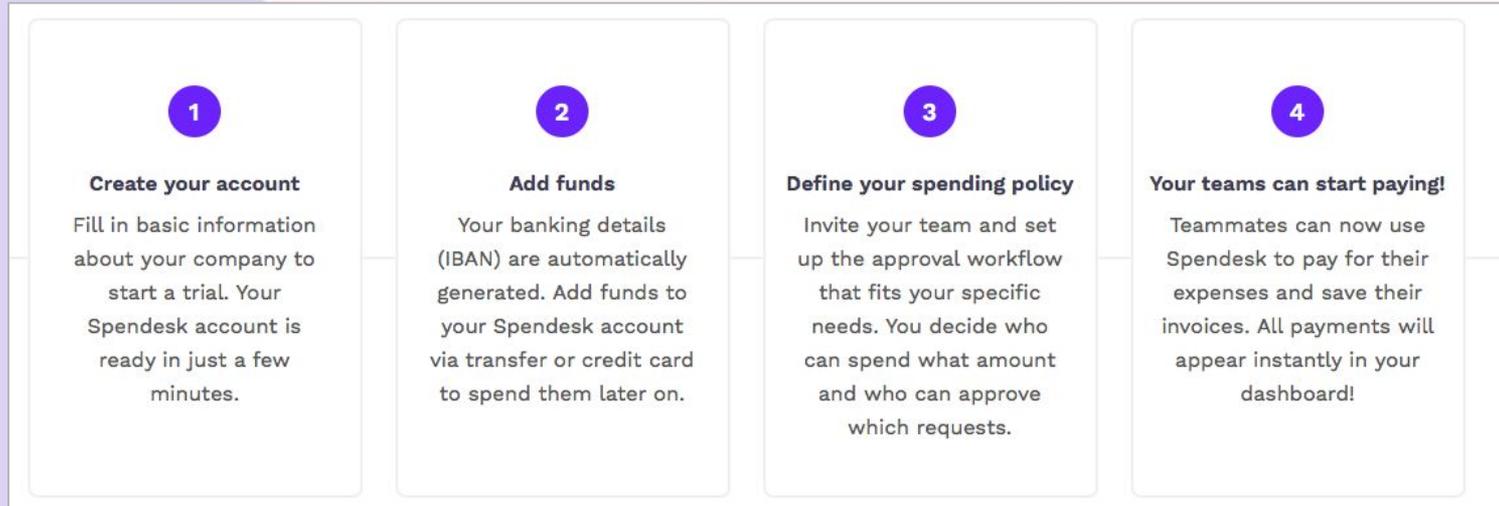

Our priority is your security. We guarantee that Spendesk is a reliable, trustworthy, and secure addition to your business. Your credit card, bank details and data are protected, and our customer service is ready at any time to answer your queries and concerns.

# What our clients say

**Joseph Cochrane**

Key Account Manager, AB Tasty

“Spendesk is an ingenious way to manage travel costs and keep track of all my expenses, it really makes my life much easier.

**Xavier Haffreingue**

COO, Tinyclues

“With Spendesk I know in real time where the money is spent and I don't have to lend out the company's credit card anymore. What a relief!

**Elisa Assier de Pompignan**

Finance and Innovation, Dataiku

“I'm astonished by the time Spendesk allows me to save everyday. Teams don't get stuck when they need to make a payment and they don't come to me to get the credit card anymore. I love it!
