« TOP 5: MUST HAVE ITEMS IN YOUR HOME BAR

1. MEASURING DEVICE

You can't make a truly classic cocktail if you don't have the proper measurements. So, to ensure that your guests go home shaken, stirred and in awe, buy a peg measure. The typical one is made of stainless steel and has two cones on either end. It's handy when you need accuracy.

2. GARNISHING

If you're throwing a party, make sure that in addition to your mixers such as juice and soda, you are stocked up on garnishes. These small touches can take your party to the next level. The top things to include are lemon wedges for beer, hot pepper sauce for Bloody Mary's, coarse salt for the rim of the glass, a bottle of olives and cherries for cocktails.

3. ICE BUCKET

Sure, you could head to your freezer every two minutes to refresh your guests drink but that's just so tedious and not to mention, unstylish. A classic ice bucket, with tongs or a shovel for ice cubes, is a must have for a sophisticated bar. And no, a plain bowl will not do.

4. A JUICER

If you want the best party this season, then you have to go an extra mile. Fresh fruit or vegetable juice can make the best cocktails and is recommended over bottled juices whenever possible, so make sure you have a good juicer. Your cocktails and guests will thank you for your effort.

5. SPEED POURER

It's considered to be a luxury item for most home bartenders but comes in very handy when you're hosting a large party. The pourer, which is attached to the mouth of an alcohol bottle, allows you to pour the drink fast with the least amount of spillage. However, once the party is over, make sure to replace the original cap on the bottle so the spirit doesn't spoil.
