- this pandemic is hard on everyone, but it's presenting unique challenges for Canadians living with disabilities
- it's harder for us to access programs and services, it's harder to visit family and friends, it's harder to manage health care
- and it's having a physical, emotional, and financial impact

- that's why March of Dimes Canada wants to conquer the curve
- with your help, they can continue providing crucial support during COVID-19 and beyond

#### **TRACY SCHMITT**

- hi, everyone – I'm Unstoppable Tracy
- this pandemic has been hard on all of us, but it's a different kind of hard for Canadians living with disabilities
- support we depend on every day is suddenly harder to access or not available
- getting out of the house, which can be difficult under normal circumstances, is now dangerous too
- we've been separated from programs, services, and people we rely on
- So March of Dimes Canada is calling on all of us to help conquer the curve
- With our help, MODC will continue providing support in new ways right now and after COVID-19 is behind us
- Visit [conquerthecurve.ca](https://conquerthecurve.ca) to donate if you can
