Inmate escapes county jail Saturday

Carla Nielsen
news@reidnewspapers.com

The area is on high alert after an inmate at the Ottawa County jail managed to escape in the wee hours Saturday morning, triggering an active man hunt that continues.

Chance

Charles Craig Chance, a.k.a. Chuck, escaped from the jail in Miami on Saturday, Dec. 11, at approximately 1 a.m., according to Undersheriff Rocky Ferdig Saturday morning.

The escape allegedly occurred while jailers were assisting another officer with an intoxicated person just inside the intake area at the jail.

It is known that Chance exited out the north door after breaking the lock on his interior cell.

“How he got out of the building is still under investigation, Ferdig said Sunday, “and he is believed to still be in the area.”

There were no new leads as of Sunday morning, after all leads that had come in so far were followed up on Saturday night, Ferdig added.

Chance was being held on multiple charges of possessing stolen property and was last seen wearing a white T-shirt and gray issued sweat pants. He is approximately 5-10, weighs 200 pounds, has brown hair and blue eyes.

Anyone with information should call the Ottawa County Sheriff’s Office at 918-542-2806, or central dispatch at 918-542-5585, if you have any information on the escaped inmate’s whereabouts.

MPS COLLECTS FOOD FOR CHRISTMAS BREAK DELIVERIES

Moira K. McGhee
news@reidnewspapers.com

Coming off a successful Peanut Butter & Jelly Drive that provided food to more than 150 households during the Thanksgiving break, Miami Public Schools has set its sights on collecting snacks and easy-to-prepare foods to deliver to students during the much longer Christmas break. Whitney McGhee, the school district’s new Mental and Behavioral Health Liaison, is spearheading the Christmas Break Food Drive/Delivery.

She said they’re primarily looking for donations of low-maintenance, easy preparation items. Things like granola bars, Pop-Tarts, Easy Mac, individual applesauce cups and fruit cups or anything else kids can easily prepare themselves. While the program does benefit students in low-income households, it also helps many other students across

the entire school district. “We have lots of students who go home with snacks on the weekends for lots of different reasons,” McGhee said. “We took those lists from each of the school sites to build a district list and that’s the list we go off of.” Every household on the list will receive its own bag of food based on the size of the household. The plan is to have enough items to help cover breakfast, lunch and snacks for about a week.

“The plan is to have enough items to help cover breakfast, lunch and snacks for about a week.”

and maybe a whole box of granola bars rather than one or two granola bars like what they go home with on the weekends. I would just love to have full grocery bags for every household. That would be my vision.”

To make her vision a reality, McGhee and her team are accepting food

items as donations. She said people can send things to the different schools or she can pick stuff up or meet people who want to drop off items. Whatever works for both individuals and businesses. Because it’s a much bigger food drive, they’re relying more heavily on the generosity of local businesses.

They also already have some funds that have been donated to purchase items. They have some money from the school district that was allocated for the project and Bright Futures also donated money to the cause. These funds will help fill the gaps of missing food items still needed to fill the bags.

“We have some businesses just making a monetary donation, then letting us do the shopping and that’s obviously just fine,” McGhee said. “This helps those who might not have the time to go do the shopping. It’s going to be a lot of food.”

Like the previous project over Thanksgiving break, the Christmas break food drive will deliver bags to 150 households with over 300 enrolled students. That’s not counting any

Citizens encouraged to contact FEMA about floodplain management

Carla Nielsen
news@reidnewspapers.com

The regular Miami city council meeting kicked off Monday evening with an appearance by Rebecca Jim with the LEAD Agency, which monitors Tar Creek and the floodplains here.

“There is an issue that has come up that I think you would like to ask citizens in the community to do,” Jim said. “Individually and in your own capacity, we need to write comments to FEMA (Federal Emergency Management Agency), which has requested public input on revising the national flood insurance program, which will be helpful to communities that have flooded.”

She noted that FEMA had not updated its standards in about 50 years.

“In their instruction comments, FEMA says that heartfelt letters mean more than form letters while they are trying to figure out how floodplain management standards can be changed to make communities better,” Jim said. “One would be to not build where it floods. There are several recommendations being made throughout the country, including asking for prohibition of construction in 100-year floodplains, and that critical infrastructure not be put in 500-year floodplains in an attempt to establish a basis to go on in the future.”

Jim also said, “It’s an opportunity for people in your standing to make a comment that could change history for the generations that follow. We also need to have the rules changed so that future buyers know that a property is in a floodplain, to protect citizens and make flood insurance fair.”

Three seek board seat at Wyandotte other districts in county have one candidate each

Wyandotte is the only school district that will have an election.

Keisa Billings, Mark A. Buzzard and Alvin Kihenia are the only persons that have filed for any of the positions in Ottawa County. Kihenia had been appointed to fill Seat 2 on the Wyandotte board, but now will seek a full 5-year term.

Others who have filed with no opposition are:

Afton — Teresa McCoin (Seat 2 incumbent, 5-year term)

Commerce — Herb Logan (Seat 2 incumbent, 5-year term) and Tony Durham (Seat 4 unexpired 2-year team)

Fairland — Crystal Wyrick (Seat 2 incumbent, 5-year term)

Miami — Harley Turner (Seat 2 incumbent, 5-year term) and Brandon Foster (Seat 1 unexpired 4-year term)

Quapaw — Paula Suman (Seat 2 incumbent, 5-year term)

Turkey Ford — Clarence Jones (Seat 1 incumbent, 3-year term)

The primary will be held Feb. 8, 2022 with the general election on April 5.

The voter registration deadline is Jan. 14, 2020 and the last day to request an absentee ballot is Jan. 24, 2022.

The early voting period is Thursday, Feb. 3 and Friday, Feb. 4.

Spirits were high at the Fairland Christmas parade

Moira K. McGhee
news@reidnewspapers.com

The Fairland High School cheerleading squad gave a rousing performance of “Jingle Bell Rock,” which included singing and dancing that rocked the show and delighted audience members at the Fairland Christmas Parade on Saturday.

The squad was nestled between the Fairland High School and Quapaw High School marching bands, who both added their own music to the festivities with versions of classic Christmas tunes that jingled all the way down Highway 60.

The Fairland High School cheerleaders performed at Saturday’s parade.

The annual event saw about 25 entrants this year, many of which

wowed kids and adults alike. Parade attendees were heard commenting on how cute the little angels were on the First Baptist Church of Fairland’s float and they loved the Quick Care (opening soon) float because it spewed bubbles.

Other notable entrants included the Craig County Shriners (The Rascals) with their miniature car and dune buggies and the Grand Lake Shrine Club with their boats.

These were just some of the many modes of transportation that cruised along the parade route. Parade

younger siblings who don't go to school yet but are part of these households, as well.

McGhee said they'll be delivering the food bags on Dec. 28 to cover the final week of Christmas break when the kids are more likely to need some help with snacks and easy lunches. Volunteers among the school staff will be packing the bags and helping with deliveries.

"We have a team consisting of our school counselors, the school-based social workers, outside counselors and administration who will be doing all the delivering," she said. "Four different school cars will be going out. We have the town split up into quadrants. We went out in teams on Thanksgiving break and that's what we're going to do again with a driver and a navigator. It's a lot of fun."

The group will do a similar student food drive and delivery for Spring Break. The idea is that they'll do this anytime the kids are out of school for three or more days.

"This is something that's brand new," said McGhee. "We haven't done anything like this before in the school district. We're really taking a district approach to trying to help our kids."

She said the school was able to hire a school nurse again, which

is something they hadn't had for years. They also created the position she's in. She works with the counselors, school-based social workers, all the resource staff and administration, and acts as the point person for the district on projects like this.

She felt that providing food delivery to the students really filled a need since there isn't a consistent service providing food for the kids like they had during COVID. While what they're delivering isn't necessarily hot meals, it's still getting food to the kids.

"This is really something that the district sees as important and they put people in place to get it done," McGhee said. "There's a team of about 20 people that collaborate and just kick around ideas making sure that we're not letting kids slip through the cracks and just trying to get them the resources that they need. I think the food delivery projects are on the radar to continue every school year."

Any individuals or businesses interested in donating to the Christmas Break Food Drive can do so until Dec. 23.

Contact McGhee at 918-533-1035 or wmcghee@miamips.net to make arrangements to either drop off items or have them picked up.

Book notes

revealing new possibilities for human emancipation.

The Every by Dave Eggers

When the world's largest search engine/social media company, The Circle, merges with the planet's dominant e-commerce site, it creates the richest and most dangerous—and, oddly enough, most beloved—monopoly ever known: The Every."

The Left-Handed Twin by Thomas Perry

Jane Whitefield helps people disappear, but her latest client is being pursued by a murderous boyfriend who is friends with members of a Russian organized crime brotherhood.

Mercy by David Baldacci

After a perilous investigation that nearly proved fatal, Atlee has finally discovered not only the reason behind her parents' abandonment and Mercy's kidnapping, but also the most promising breakthrough yet: proof that Mercy survived her abduction and then escaped her captors many years ago.

Reclamation: Sally Hemmings, Thomas Jefferson, and a Descendant's Search for Her Family's Lasting Legacy by Gayle

Jessup White

A Black descendant of Thomas Jefferson and Sally Hemings' family explores America's racial reckoning through the prism of her ancestors—both the enslaver and the enslaved.

To End in Fire by David Weber

The Solarian League, the largest, most economically powerful human star nation in existence, lies in defeat, but despite the overwhelming evidence that their unelected political leaders were the driving force behind the war, many League citizens deeply resent the fashion in which their star nation has been humbled.

The Wolf by J. R. Ward

Things get steamy when Lucan, a wolverine forced into bartering drug deals for the infamous Prison Colony, meets Rio, the second in command for the shadowy Caldwell supplier, Mozart.

You Sexy Thing by Cat Rambo

Retired and finally free of the continual war of conquest, Niko Larsen and the remnants of her former unit are content to spend the rest of their days working at the restaurant they built together, but some enemies aren't content to let old soldiers go.

Sudoku uses pure logic and requires no math to solve. It is a number-placing puzzle based on a 9x9 grid with several given numbers.

The object is to place the numbers 1 to 9 in the empty squares so that each row, each column and each 3x3 box contains the same number only once.
